

Pharmatrace

System for direct coding on erected carton boxes

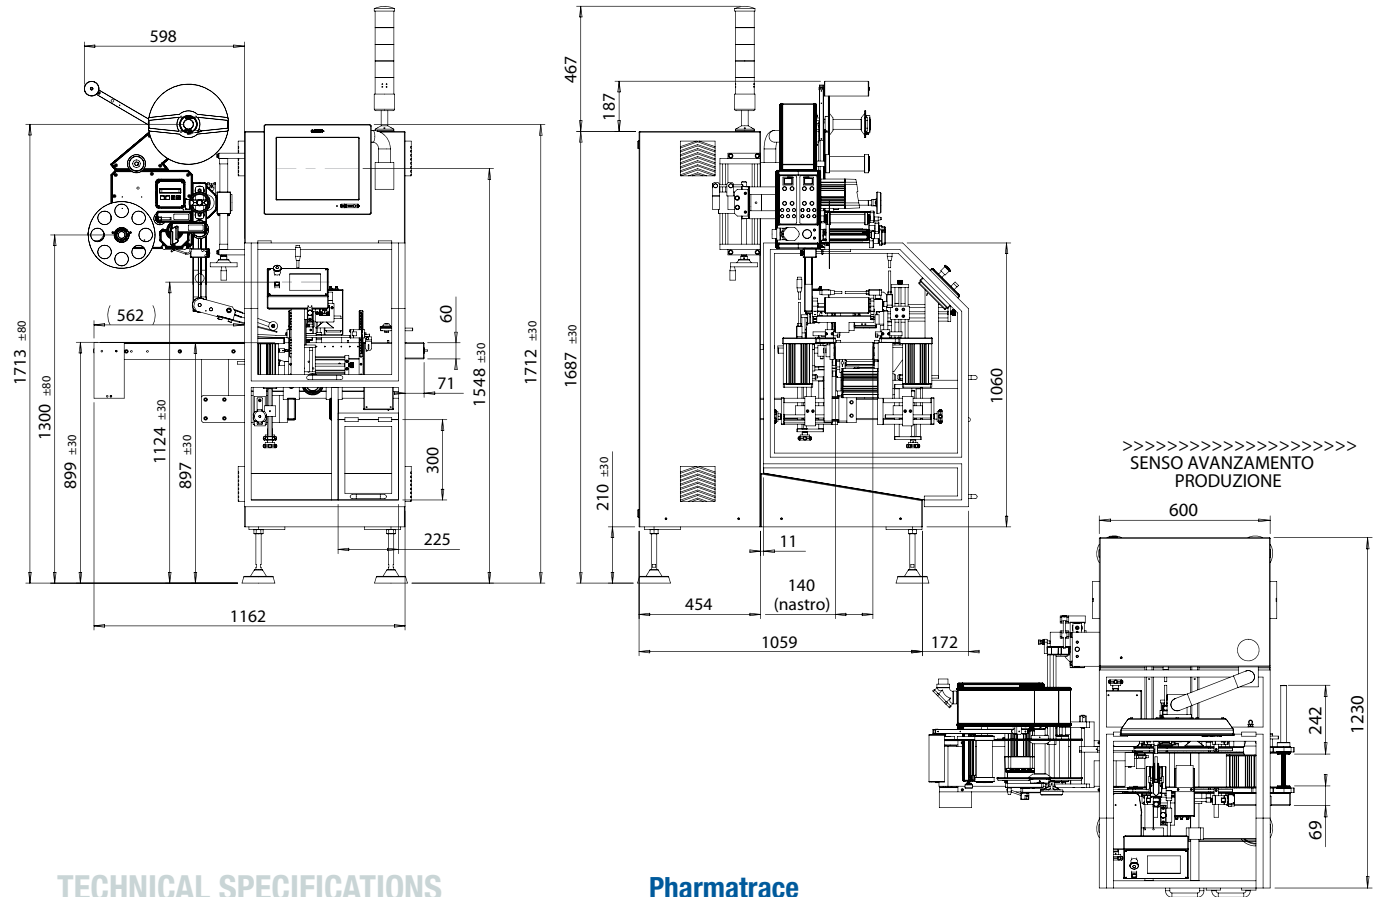

For erected carton boxes

This system codifies directly onto the carton boxes, and checks the integrity of the print by a camera, which reads the Datamatrix code and the text on the label. An industrial PC with a touch-screen panel supplies a simple interface for the operator, and is ready to be compliant with CFR21.

An optional labeller can be added to the machine frame for the application of the pharmaceutical label.

Etipack reserves the right to modify according to the technical evolution, without notice. All the rights of intellectual and technological ownership are reserved.

TECHNICAL SPECIFICATIONS

Pharmatrace

Output	400 pices for minute
Product Length	20 - 150 mm
Product Width	65 - 250 mm
Product height	15 - 150 mm
Machine size length - width - h	600 x 1231 x 2154 mm
Power supply	230 V Monophase, 50-60 Hz
Electrical input	2000 W
Compressed air	6 bar
